

Attendance

Children

Children at hope Nursery School are expected to come to school each day that school is open, except when ill. Children of nursery age often pick up illnesses which are infectious, e.g. stomach bugs, chickenpox, colds etc. When they are ill, parents are required to keep their children at home, to avoid spreading the infection to other children. When a child has had vomiting or diarrhea, they must not return to school until at least 48 hours after the last episode.

When a child becomes ill in school, parents or a listed contact for the child will be contacted and informed of the child's condition. In most cases they will be asked to collect the child.

If a child is absent from school, we ask parents to inform us by phone.

Where there is a concern about a child's welfare, staff may phone parents/carers to clarify the situation and, if necessary contact outside agencies/ the CPSSS for advice.
